Work Experience

Freelancer U I/UX designer   NOV 2018 - Present
99 designs.com

I've started working on this platform right after finishing my first web-design course to get some practical experience. Since that time I took part in more than 6 contest and got to final in 4 of them.

Projects

My biggest project was redesign of 7 pages of American Cocktail Club website. I made a paper sketch, designed wireframes, created high-fidelity prototype of desktop and mobile versions using Adobe XD.

"Delivery service landing page design" was my first project accomplished in flat design style. I went through all stages of design process and made this design responsive .
